Forecast for Thursday 01 Jul 2021

Weather: Clear skies to begin the day. Isolated mist and fog patches possible in the valleys in the early hours, but quickly clearing through the morning. Fair-weather cloud developing during the afternoon, but with long sunny intervals in between. Isolated showers also possible over the course of the afternoon, which may be heavy. Drying up into the night.

Chance of cloud free mountain/hill tops above 600m: 100% through the day.

Visibility: Isolated fog patches reducing visibility in the valley first thing in the morning. Otherwise, cloud remaining above the summits, allowing for very good visibility of surrounding areas.

Meteorologist's View

UV levels will be high and there will be intervals of clear skies through the day. Therefore, it is important to protect exposed areas of skin and stay hydrated.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Wed 30 Jun 2021	0mm	0mm	5.2mm

Forecast for Friday 02 Jul 2021

Weather: The risk of some low cloud and fog affecting the extremities of the park first thing, before quickly retreating to the coasts through the first half of the morning. A largely fine day follows with variable amounts of cloud and sunny spells. The odd shower possible in the afternoon, but fading into the evening and staying dry for the for the night period.

Maximum wind: Winds on the summits westerly 5mph.

Chance of cloud free mountain/hill tops above 600m: 100% through the day.

Visibility: Low cloud and fog potentially bringing poor visibility to areas below 400m early in the morning, with clear conditions above this. However, largely good visibility of surrounding hills through most of the day, with moderate visibility in any odd showers.

Temperature: **Valleys:** Plus 9 Celsius, rising to plus 14 Celsius.
At 600m: Plus 12 Celsius, rising to plus 21 Celsius.
Freezing level: Above the summits all day.
